Establishment Survey Data

Employment change by industry with confidence intervals, November 2022, seasonally adjusted, in thousands, 1-month net change

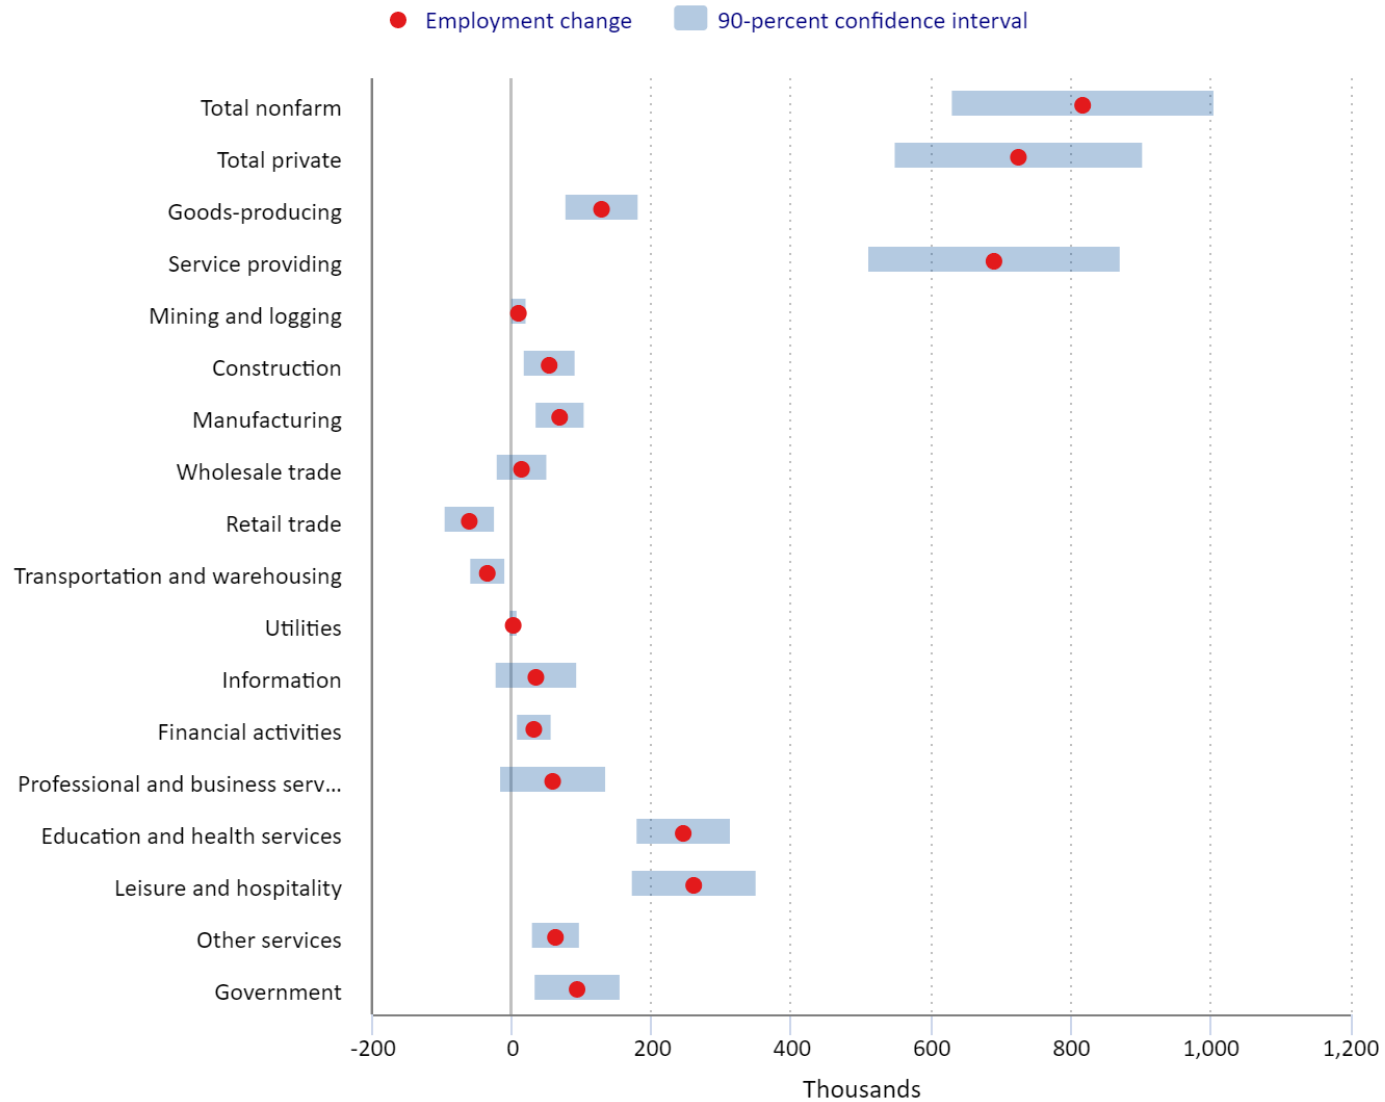

Hover over chart to view data.

The 90-percent confidence interval represents the symmetric range of values around the estimate for which there is a 90-percent probability that the actual change is contained within that range of values. If the change is statistically significant, the blue bar does not cross the zero line.

Source: U.S. Bureau of Labor Statistics.

Employment change by industry with confidence intervals, November 2022, seasonally adjusted, in thousands, 3-month net change

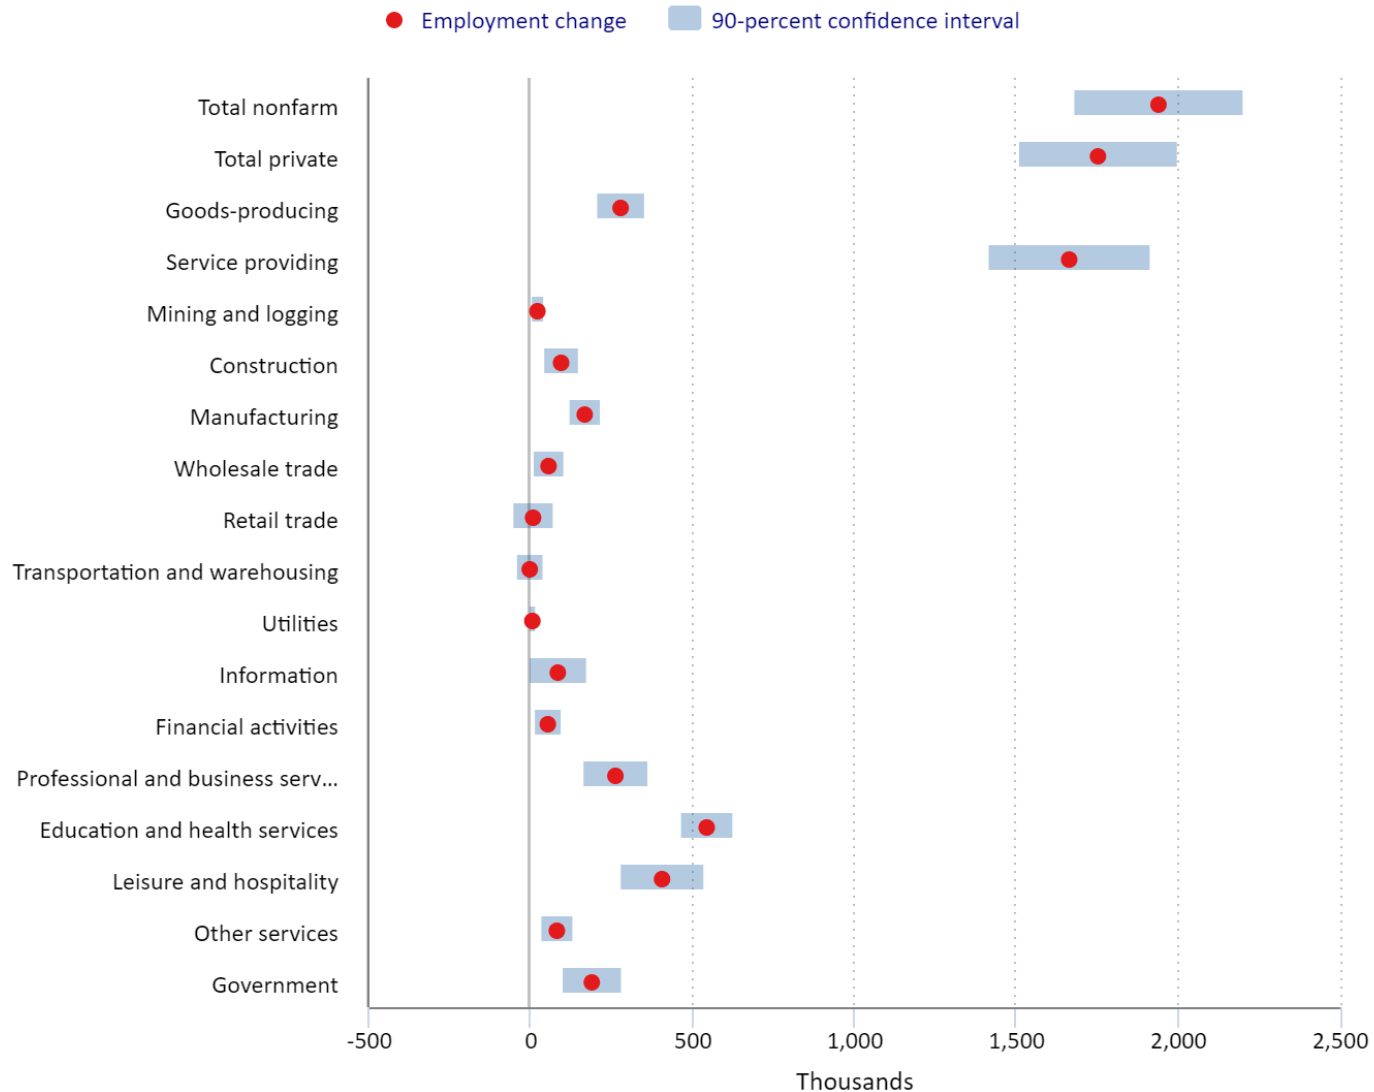

Hover over chart to view data.

The 90-percent confidence interval represents the symmetric range of values around the estimate for which there is a 90-percent probability that the actual change is contained within that range of values. If the change is statistically significant, the blue bar does not cross the zero line.
